Bingo Lingo

ONs: Number of individual bingo faces per sheet.

1 Set (all one color): One complete series of 9,000 bingo faces.

Number of booklets per set: 9,000 divided by the number of ONs.

UPs/ Collated bingo paper books: Booklets containing any number of our various colored sheets, any cut.

Number of UPs: Number of sheets in a collated booklet.

Total faces per collated set: 9,000 multiplied by the number of UPs.

Faces per book: Cut style (ONs) multiplied by the number of UPs.

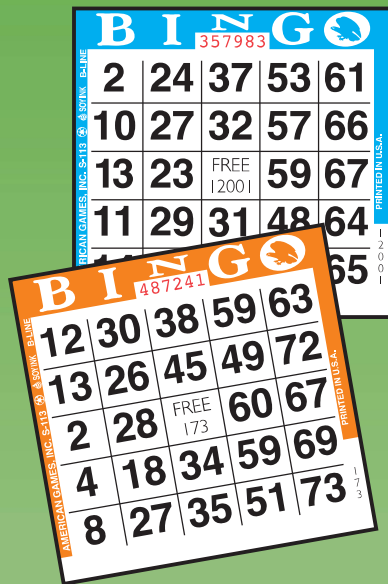

Case paper: A complete series of 9,000 faces using any cut (ONs) all of the same color.

For example...

To determine the total number of bingo faces in a 6 ON, 10UP collation, you take 9,000 (number of faces for each color) multiplied by 10 colors per booklet, which equals 90,000 faces.

To determine the total number of booklets for a 6 ON, 10UP collation, you divide 9,000 by 6 ON (number of faces per sheet), which equals 1,500 booklets.

Grand Old Flag Bingo™

Grand Old Flag Bingo™ is an instant hit with Veterans and all proud Americans. What really makes this game exciting is the Floating Star, which can show up in any one of the six blue spaces on the bingo face.

Ways to Play... More Profit Potential!

1. Grand Old Flag Bingo™ can be collated into your books or ordered as a special jackpot game
2. Use as a loose "Special" during games to capture new players and reap thousands of dollars in extra pay
3. Players double the money if they bingo on the star or win an additional prize
4. Use the star as an additional free space, it's your choice, you decide...

Tri-Corner Bingo™

Players love this game for the fast action, and managers like the odds. No consolation to worry about - always just one of two prizes. Available in 1-9 B-Line™, in all 36 ON cuts. Choose between **red** or **purple** border (other colors available with custom orders). Can be collated into your bingo booklets.

How to play: the face is divided into two triangles - One with 14 numbers, one with 10 numbers. Play stops when one triangle is covered. The small triangle hits nine times more often, for which a smaller prize is offered.

Available in 1-3 and 3-6 series

Double Play Bingo™

Play more early birds and more games due to the fast play. Quick plays mean more sales and bigger profits. Players daub like crazy because either number called marks the entire square! Our Double Play Bingo™ perm is compatible with Bingo King's® established verification system.

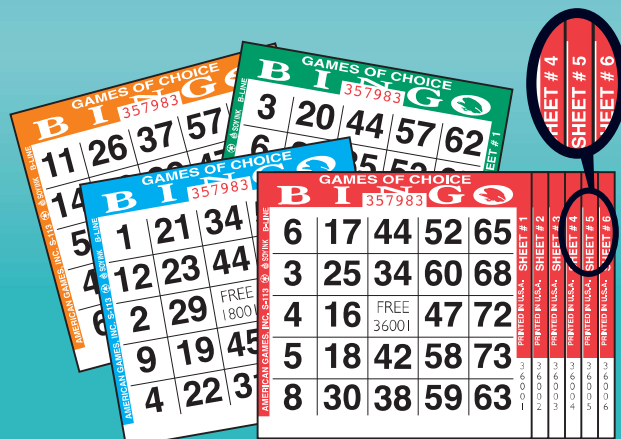

Double Play Bingo™ features:

- 3,000 single cards per set
- Sold in 8 vibrant colors: **blue, orange, green, yellow, pink, red, purple, and white**
- Available in the following cuts:
 - 1 ON, 2 ON Vertical, 3 ON Horizontal, & 4 ON Vertical
- Use Double Play Bingo™ as loose "Specials" or collate into booklets

Games of Choice™

Use Games of Choice™ for your multi-level play. The four different colored booklets identify different prize levels.

How it works: Each page in the booklet is the same color. A blue booklet contains i.e. 10 blue pages, where each page contains a sheet number. Player will choose a color booklet to purchase, which dictates the prizes that can be won. For example, if bingo is won on a blue page, a \$100 prize is claimed; a red page might pay a \$200 prize and a green page might pay \$300, and so on. 'Games of Choice' is a popular game in Las Vegas casinos and in large commercial halls with multiple sessions per day.

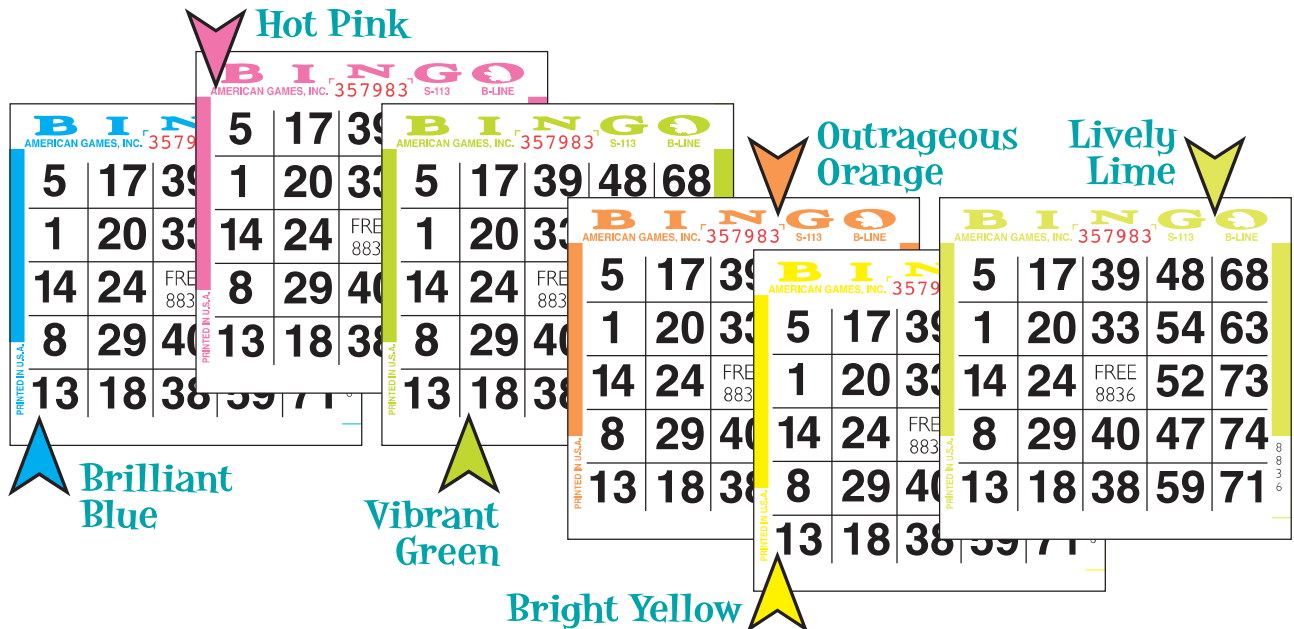

Available in B-Line™
 •9-18 (green) •18-27 (blue)
 •27-36 (orange) •36-45 (red)

Single Serial Number

Single Serial Number Bingo Paper has one common serial number on every face in each collation. The single serial number provides security for your game and eliminates the need to record multiple serial numbers. No more thumbing through each sheet of a booklet to record serial numbers, just write down the top serial number and away you go.
