VeriPowerPlay™

**Verifies Most
Known Paper Perms!**

**No Additional Hardware Required
Just TV Or Projector Screen For Display!**

Portable Bingo System

Want to mobilize your game ... Video King's new VeriPowerPlay gives you the power to play Bingo virtually anywhere. Not only is this portable, all-in-one Bingo system easy to transport, but cost-effective, bypassing the need for heavy equipment, such as blowers and flashboards. In fact, it's the ideal solution for smaller venues, such as senior centers, RV parks, churches, condo associations, bars, community centers, TV and radio Bingo, as well as aboard cruise ships.

The VeriPowerPlay is essentially Video King's PowerPlay™ software on a laptop computer. In other words, our PowerPlay Bingo desk without the balls. The laptop verifier, with optional random number generator, is able to verify most known paper perms. (But please check your jurisdiction regarding RNG.) It can also be used with a small, ball-draw cage or any other simple ball-draw method.

Equipped with VGA and HDMI outputs, the verifier will run video flashboards. No other equipment is needed, other than a TV or projector screen. It can also be played on a wired version of Video King's FreedomPlay™, a new generation of digital flashboards, featuring customizable layouts, high-def graphics, animation, scrolling messages and many other highlights – in a variety of themes. (Additional hardware required.)

Once again, Video King – with this convenient-to-carry, laptop design – has broadened its scope and proven to be the go-to place for gaming, now offering Bingo-to-go. Want portability and affordability ... then get the VeriPowerPlay, and 'lap' it up!

Specifications

- Part No: 192476-B
- WxDxH: (Front/Rear)
14.8 x10.4 x.82"
- Weight: 5 lbs.
- Battery Life: Up To 14 Hours
- Windows: 10 Pro 64
